

2008 SCIENCE FAIR WORKSHOP

February 9, 2008

Unable to attend? Pre-order your workbook to be sent out after the workshop.

REASONS TO PREPARE TO PARTICIPATE IN A SCIENCE FAIR:

- ✓ Public school students have an opportunity that is not readily available to home school students – a science fair! Make sure your student has the best opportunity to participate.
- ✓ A science project enables a student to benefit from an in depth study in a field of science along with hands on learning to prepare a project board, verbal presentation, and for 5th grade and up a journal and report.
- ✓ A science fair helps a student develop the skills needed to succeed in college and utilize in a variety of careers.
- ✓ Participation in a science fair, especially if special awards are received, looks impressive on a high school transcript.

TO ORDER WORKBOOK:

1. Mail in your order form and fee to be received by February 4, 2008. The 2008 workbook mailed out is bound in a notebook. If you do not make the deadline, you can still order the workbook or you can go to our web site and download the 2007 Workbook under "Resource Packet."
2. The workbook will be mailed out by February 15, 2008. If you do not make the deadline, please send an email to the address below that your order was mailed, so that it will be expected.
3. If you have questions upon reviewing the material, email Karen Garza for a free phone consultation. texasregionalsciencefair@yahoo.com
4. **NOTE:** If you register for the science fair, the 2008 Workbook can be ordered at a 50% discount on the TRSF registration form.
